

BONUS TOP ISSUE OF U. S. POLITICS

Congress Between Two Fires While Seeking Means to Raise Fund.

By DAVID LAWRENCE.

Copyright 1921, by Jamesville Gazette.

Washington—The bonus has become the biggest political and economic issue before the United States government.

President Harding's firm refusal to permit the money expected to be received from the allied war debt to be used as a basis for payment in bonds or borrowing has led congress to explore all the various means of direct taxation that can be depended upon as a means of revenue.

As congress looks around for things to be taxed and sees political dangers arising from the non-soldier multitude, the task of voting the bonus becomes increasingly distasteful. The secretary of the treasury has told congress that the money for a bonus can be raised by taxing tobacco and cigarettes, gasoline, as well as each automobile, depending upon the horsepower; by taxing documents in real estate and legal transactions, and by requiring everybody who cashes a check to affix a stamp thereon to present it for payment. Besides this, an increase from two-cent to three-cent postage is being seriously considered.

Soldier Bonus Effect
Some of the government experts figure it out that the effect of a bonus issued in that way will be to make the soldier himself and the members of his family pay out of one pocket what he will be receiving in another. Already the congress feels the political weight of the country for failing to reduce taxes appreciably this year, and now to add instead of subtract taxes is something which republicans as well as democrats admit may bring about the disadvantages of favoring the soldiers.

The real trouble about the soldier sentiment as it is waited here is that while many soldiers do not need a bonus or want it they are ready to jump on anybody who says they do not deserve it. Some of the letters coming into the capitol from all parts of the country reflect a bitterness such as congressional mail has rarely witnessed. The fact that there is even a reluctance to grant a bonus is in itself condemned, and the idea that the money is irrevocable carries little conviction with the soldier folks, who are all too well justified because congress provided for everything else before even considering a bonus. To those who fought to preserve the government, the thought of paying out money for new government activities of any kind is a contradiction of patriotism.

Feeling of the Soldier
The feeling of the returned soldier that he has been neglected by con-

gress ever since he came back from the war is coming to the surface in the demand for a bonus. Those who had no way of showing their dissatisfaction before with governmental indifference now are demanding the bonus simply because congress is wavering about granting it. As one soldier writes, "I do not need a bonus but if it comes I shall receive it as ungratefully as it is grudgingly given."

The details of government economies have produced little effect except on that small group of former service men who now occupy positions in the financial world and know the true meaning of higher tax burdens and further government borrowings. As for the soldiers themselves, many of them write in saying they do not see why a government that can provide compensation for the veterans of the civil war and the Spanish-American war cannot take care of the many millions more who fought in the war overseas in which the whole world was saved from autocratic rule and militarism. One thing that is dawning on only a few members of congress and officials, too, for that matter, is that the payment of a bonus for the next two years will not immediately dispose of soldier compensation.

VOICE OF THE PEOPLE

Editor Gazette:
Many times in the past two years I have been asked to me "The people of Jamesville will stand for anything the city council cares to put off."

I think the last thing they have pulled out of the bag of the most distasteful and unpopular for acts of which any body of men or any man could be guilty. It is a direct blow to the A. B. C. and only gives the brave soldier boys one more chance to see for themselves and hear with their own ears just to what extent their services are appreciated by those in office. Living off the taxpayers of city, state and federal government.

If the city council had raised no salaries then it would look different, but I suppose Dr. Woodworth is one of the "hirelings" mentioned in that burst of oratory. It is time the taxpayers were taking a hand in this game, and if we cannot stop the blowing in of our money in any other way, get an injunction and stop it.

We must have a city manager, a man who is big enough to handle the city affairs as they should, and not a few men who are too small to run a big job. There are too many blunders and too much favoritism being shown to try to tell them. But they will all be told many times before next election day.

To the working men I want to say, when the scraping of the bridges was ordered, done the work was supposed to be given to men needing work, but there were men working there who did not need it, and they have told me so. One, in particular, owns two or more pieces of property in the city. This is one way labor is helped in times of depression. The strongest crash the weak and the strongest crash the weak.

I have seen one member of the fire and police board violate the traffic laws in turning from Bluff street into

Milwaukee street just two feet from the curb at Myers theater corner. We want big men—not small men who think they are big—men who cater to no one and have no favorites of any kind, to fill our offices from now on.

OLD CHIEF SEEKS MONEY FOR TRIBE
Green Bay—After donning a distance of approximately 21 miles, during a cold spell, from his cabin in Blackwell, Chief Simon Queganua boarded a train in Crenson for Washington, where he expects to confer with department of interior officials concerning money due his people.

COME! LET'S PLAY TOGETHER!

David Belasco, eminent playwright, at a dinner in celebration of his fortieth year in the dramatic field, spoke from a lifetime experience of brilliant achievement when he said:

"People say to me, the doctors and my friends: 'You work too hard.' I say 'No—I play a little hard perhaps—my work is my play.' And it is such good sport that I love it more and more. I believe God made us so that we could love our work so much that we might play at it."

Interest in one's work is the secret of turning it into play. In this store family we strive to make our work so interesting that it becomes a labor of love and consequently a glorious game.

The old chief is a descendant of noted Potawatomi chiefs, both his grandfather and father having ruled this tribe of Indians. He rules 200 pagans, including all that are left in Wisconsin of the Potawatomis, the remainder having moved to Kansas and Oklahoma. These Indians

were said to have favored the French in the early wars and later were hostile toward the United States. The old chief was born in Keweenaw county 1247, when that county was a wilderness and Indians roved of their own free will. The chief has acted as a cruiser for a lumber

concern for many years. He speaks English fairly well, although his education has been confined to the school of experience.

GIRLS PLAN LOAN FUND
Wausau—In an effort to further the education of girls who would be forced to discontinue school on account of shortage of funds, the Wausau club, composed of girl students of Wausau high school, have started a scholarship fund to loan

money to the girl who otherwise would be forced to stop school.
Green Bay—Insuring their deposits against fraudulent withdrawal of deposits, the Citizens National bank of Green Bay has adopted a finger print identification system as part of their service to depositors.

A short business meeting was held and a program given, consisting of two mandolin solos by Miss Gladys Morton and a reading by Mrs. Harry Huginlin. The program was closed with a song by the club.

Business and Social—The Court of Honor held its usual business meeting Thursday night, and a class was initiated. A social evening followed, different card games being played. At 11 o'clock, light refreshments were served by the committee. The next meeting will be held Friday night, Feb. 24, at Eagles hall, at which time a masquerade ball will be given after the business meeting, and a four-piece orchestra will play.

Has Coffee Club—Mrs. William Lohman, 1412 Sharon street, entertained a coffee club at her home Thursday afternoon. A lunch was served at three o'clock, covers being laid for eight. A social afternoon was spent. This club meets weekly.

Now Club Organized—The first meeting of a club recently organized to play five hundred, met at the home of Mr. and Mrs. Myron Warner, 709 Rogers avenue, Thursday night. At cards, Mr. and Mrs. Lowell Thorman took the prizes, and after the game, a supper was served. The table was decorated with Valentine decorations.

First of Series—The Eastern Star dancing club met at East Side Odd Fellows hall Thursday night, and held the first dance of a series that has been planned. There was a good attendance, and great interest was taken in the stunts that were put on. Prizes were given for a balloon contest, Mrs. Roy Giesland, Mrs. Jesse Barle, Arthur Wright and C. V. Kerol winning the honors. The George Huetel orchestra played. The dance will be held Feb. 17 at the same place.

Meets at Humphreys—Mr. and Mrs. J. E. Humphreys, 411 Caroline street, invited the members of the Jolly Sixteen club to be their guests Thursday night. At cards, the prizes were taken by Mrs. Edgar Duthie and James Newman. At 10:30, a hot lunch was served by the hostess. This club meets twice a month.

Entertainers Circle—Mrs. George Brownell, 517 Milton avenue, is entertaining Circle 8 of the Methodist church at her home Friday afternoon.

Meets at Mount—The Community Aid Division of the Presbyterian church met Wednesday afternoon at the home of Mrs. J. J. Jackson, 111 E. Main street. Business was transacted and a social afternoon was spent. Refreshments were served.

MacDowell at Mount Home—The MacDowell club held its regular meeting Thursday afternoon at the home of Mrs. M. O. Mount, 214 South Wisconsin street. The leaders for the afternoon were Mrs. Frank Martz and Miss Louise Bennett. Mrs. C. S. Atwood gave a paper on the composers of the day. Mrs. Martz sang "Soprano's Song" by Brahms and "One Who Has Returned Alone" by Tschalowsky. Miss Bennett gave the duet in "F. Arensky and 'The Angel' by Rubenstein. Mrs. Martz and Mrs. J. E. Lofgren together sang "The Wanderers' Night Song" and Miss Mabel Nott sang "The Lake" by Glinka. Mrs. Lofgren gave a piano solo, closing the program. The hostess served refreshments, buffet style, from a beautifully decorated table. The out-of-town guests were Mrs. Van Ness Green, Edgerton, and Miss Edith Welsh, Chicago.

To Have Club—Mrs. A. P. Burnham, 871 Sherman avenue, will entertain the Cooking club at luncheon at one o'clock Saturday.

Card Party Thursday—A card party was held Thursday night at the home of Mr. and Mrs. D. B. Conley, Park avenue. Five hundred was played, and a lunch served later. Prize-winners were Mrs. Oliver Grant and Mrs. Roy Grant.

Foreign Ambassador Here—Hon. Albert G. Schmeidegan, ambassador to Norway for a number of years, until recently, was a guest of the hostess and Mrs. J. J. Cunningham, 618 Court street, between trains Thursday, on his way from Washington to his home in Madison. Mr. Cunningham was invited to a small party of friends at his home at a noon lunch, and Mr. Schmeidegan left in the afternoon.

Have Dinner Club—Mr. and Mrs. T. E. Harrison, 871 Sherman avenue,

entertained Thursday night their guests being members of the Dinner club. The dinner was served at seven o'clock at 16 places. Pink sweet peas decorated the one table, and cards were played later. Mr. and Mrs. Oscar Cunningham and Mr. and Mrs. Oscar Yahn winning the prizes.

Entertainers at Jackson—Dr. and Mrs. J. P. Jackson, 501 Jackson street, entertained the younger set of the city at a dancing party at the Jackson club Thursday night. It was a post-nuptial affair, honoring their son and daughter-in-law, Mr. and Mrs. Audrey Pomeroy, who were married in Chicago in the fall. More than 150 guests attended and enjoyed the dancing in the ballroom, where a three-piece orchestra played. Sweet treats were received in the living room, handsomely decorated.

The Palmolive Co.'s New Economy Laundry Soap Combining Olive Oil and Naphtha

Have you done a washing with our *green* laundry bar—probably the first *all*-SOAP laundry bar ever put on the market.

The laundry bar that has no cheap "fillers" in it to make up weight and bulk.

The first laundry soap we know of containing Olive Oil—the cleansing agent used in fabric mills by experts.

Never before has a laundry bar combined all these virtues. And yet this ideal soap, even priced slightly higher, is the most economical you can buy.

In a washing usually done with two bars of ordinary soap, one bar of GREEN ARROW proves enough. Clothes rinse cleaner, dry softer, smell sweeter, not to mention the bars you save.

**Not Twice the Size—
But Twice the Soap per Bar**

Bar for bar, you get much more soap in Green Arrow than in ordinary laundry cakes. Green Arrow contains about twice as much as some. We do not mean this bar is twice as large. It is not. It's just a good ordinary laundry size.

But Green Arrow is *all*-SOAP—pure soap. Ordinary laundry soap is not all soap. 25% to 50% of its content is nothing

more than "filler"—a substance without washing value. It is mixed with ordinary laundry soap to make up for the real soap left out. This permits the bar to be sold as a "bargain"—because "filler" is cheaper than soap.

Green Arrow is *all*-SOAP—100% washing quality. And nothing else counts on washday.

**No Streaked, Faded, Rotted Clothes—
Economy That Counts!**

Years ago, we too, created a "filler" soap to meet price competition. But we found that "filler" often curdles the water. It collects in the meshes of the fabric and the strands of the thread. Frequently it causes your clothes to look gray or streaked.

So we became convinced that women would hail an *all*-SOAP bar with delight and created GREEN ARROW containing olive oil and naphtha.

The instant success of this green pure soap has proved we were right. Women no more like to wash with soap mixed with "filler" than to bake with flour mixed with chalk.

Now this *all*-SOAP, Green Arrow, is the most economical bar you can buy. For, naturally, it goes twice as far, protecting clothes besides. They rinse cleaner and whiter, dry softer, smell sweeter. And it saves destructive rubbing.

Won't you please try this the next time you wash—try half the Green Arrow that you use of other soap?

And note how quickly the dirt is set free by the Olive Oil and Naphtha. Note your hands after—no burning, no redness, no roughness.

Don't forget—your grocer will supply you.

THE PALMOLIVE CO., Milwaukee, U. S. A.

No rough, red hands! GREEN ARROW contains Olive Oil.

Use GREEN ARROW for fine fabrics and they will not shrink. Use it for dishes and woodwork, as well as for laundry. It lathers luxuriously in any water and there is nothing in it to harm a single thread.

We Deliver.

Mrs. Cullen, Old Resident, Dies of Pneumonia

Mrs. George P. Cullen, 73, mother of John P. and James H. Cullen, prominent citizens of this city, died at 6:30 P. M. Friday morning at her home, 107 South Main street. The cause of her death was pneumonia, from which

she had been suffering for three weeks. Mrs. Cullen, Anna Lee, was born in December, 1842, in Roseannon county, Iowa, and came to this city overland from Milwaukee when but nine years of age. She lived here continuously since.

She is survived by her husband, four sons, John P. and James H.

congress to legalize cooperative marketing and organization among American farmers?

Max Wickham—"It will at least clear up the dispute as to the farmer's right to do his own marketing. It is a mighty good thing and will prove a big boost to agriculture."
H. J. Stark, route seven—"I do believe in farm cooperation and think the action of congress was all right. I have read some about the farm legislation being passed and we certainly need something to better farming conditions."
James Pennycook, route eight—"Certainly, farm conditions can be improved. I am not well enough posted to know just how such laws would affect farming in general."

to Farm Bureau—"That shows that the farmer has the power and the leadership. About every line of business, wholesale and retail, is now organized and there is no reason why the farmer should not promote his business through his own cooperative work. That law would make it legal and it all points to the fact that there is even better legislation coming which will improve agriculture."

300 PRESENT AT CHURCH REUNION

Past Year Reported One of Most Successful in Congregational History.

A great birthday party, taking in old and young, and embracing a family group of 300, was held at the Congregational church, Thursday night on the occasion of the annual home gathering. An interesting history of the year's events was given by the historian, Mrs. Fred Sutherland. The year's work was summarized by the pastor, Rev. Frank Scribner, on April 25, the beginning of the Men's Bible class, March 12; the summer picnic at Koshkonong; the father and sons banquet at the Women's Bible class, Oct. 20; the church remodeling, electric lighting donated by Mr. and Mrs. H. S. Lovelace; a supply of hymnals presented by Mr. and Mrs. Frank Hulse; and the closing of the year with a song by Mrs. Menzies.

Membership now 577. The report of the clerk, J. M. Whitehead, showed 29 members received by letter, 14 by confession and 9 babies baptized, making the present membership 577.

The list of the losses by death during the year were those of Mrs. Martha Clemens, Mrs. J. Farnsworth, Mrs. Emily Clark, Mrs. J. L. Ford, Mrs. Ingersoll, Mrs. Peter Jamieson, Mrs. Laura Miller, Mrs. Norcross and David K. Scribner.

Brief reports were also given by J. A. Markham, superintendent of the Sunday school, who asked that parents give better cooperation; by Mrs. A. C. Clark, reporting the different events during the past year in the Loan Fund; the Plymouth Guild reported by Mrs. Dorothy Hough.

An encouraging report of finances was given by Mrs. Harriet Jeffris, treasurer of the Women's club, when she showed they had raised \$2,822.

Speaks Highly of This Home Made Cough Remedy
Says It Acts With Unusual Speed—Lessens the Cough—Relieves the Irritation and Stops the Cough.

Whenever anyone in my family catches cold and begins to cough and sneeze, and hark and breathe heavy, it doesn't take me many minutes to fix up a remedy that will drive away all such troubles in a short time. There is no secret—anyone can make a half pint of the finest cough medicine in the world for a trifling sum.

Get from any drug store one ounce of Parment (double strength)—to this add a little granulated sugar and enough water to make one-half pint—shut all there is to it.

But now you've got a real medicine—mix this with one spoonful of water and take directly on the membrane of the throat and nose, the tickling cough and the inflammation begins to disappear and the stubborn mucus and stuff in 24 hours every trace of the cough that troubled you is gone.

It's really remarkable how this home made remedy acts on the inflamed membrane and that is one reason it is so helpful to thousands of Catarrh sufferers.

Laughing in His Sleeve
"I was told nothing but an operation would help my stomach trouble, and was getting ready for the operation when a friend advised me to try Mav's Wonderful Remedy. The first dose helped me. I am now as well as ever in my life, and am laughing up my sleeve at the doctors." It is a simple, harmless prescription that removes the cause and cures the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will relieve you, and is recommended by People's Drug Co. and druggists everywhere.

WOMAN'S ILLS MAKE UNHAPPY HOME

There is no question but what the ill of women conspire against domestic harmony. The husband cannot understand these troubles and the physician finds it hard to cure them; therefore the afflicted wife and mother continues to drag around day in and day out with headaches and backaches.

Such women should be guided by the experience of women whose letters we are continually receiving in this country. Many of them declare that they have been restored to health through the use of Pinkettes. Vegetable Compound after doctors and all other medicines had failed to help them. It will surely pay women who suffer from such ailments to try it.

Keep the Children Well!
During these days many children are complaining of headache, feverishness, stomach troubles, and irregular bowels. If mothers only knew what **MOTHER GRAY'S SWEET POWDERS** for CHILDREN.

Will do for children no family would ever be without them. These powders are so easy and pleasant to take and so effective in their action that for over 30 years mothers have used them and told others about them. Sold by Druggists everywhere.

Do Not Accept Any Substitute for **MOTHER GRAY'S SWEET POWDERS.**

RUNAWAY HORSE IS SHOT AFTER CRASH WITH AUTOMOBILE

Lighter when the wagon she was pulling was struck by a north-bound interurban at 5:40 Thursday afternoon, a bay mare, owned by Frank Laskowski, 712 Hickory street, broke into a wild dash in the main street and crashed head-on into a Dodge coupe being driven by Robert Carl, 515 St. Lawrence avenue. The horse, suffering from such painful injuries that she had to be shot by Dr. R. L. Brown, who was called in hopes the life of the animal could be saved.

Laskowski's team was the intersection of the interurban and the wagon on South Main and Sharon streets. Laskowski, a well known driver, was driving in from a job in the country at the time. The horse, however, broke loose from the thills, the horse reared north along the west side of Main street for two and one-half blocks until she collided with the Dodge car being driven south on the right side of the street.

A head-light on the car was smashed and other damage caused. The horse reared with a deep gash in the bristlet about two feet long. Capt. P. D. Charney and Sgt. Charles Mandy of the police department, called to the scene, immediately summoned Dr. Brown who ended the animal's suffering with a bullet, after finding her unable to stand.

During the past three years and having assumed the existence of the county, this work which cost \$4,000, they still owe \$380, which with a pledge of \$1,000 for the running expenses this year, church they expect to raise this year.

The splendid spirit of cooperation and loyalty, manifested by the membership, was praised by the pastor in a brief address. He said the Wisconsin conference to be held in Janesville in October will be the big event of the year.

The new constitution of the church as recommended by the annual conference was read and adopted. A. E. Mitter was read and a nominating committee consisting of J. M. Whitehead, C. J. Smith and Mrs. A. P. Allen was appointed.

The supper committee, consisting of Mrs. Fred Palmer, Mrs. W. E. Moody, Mrs. Chas. Snyder, Mrs. Roy Palmer, Mrs. John Miller, Mrs. Arthur Jones, Mrs. Harry Day, Mrs. A. C. Frost and Mrs. Harry Day, assisted by some of the men served the supper, while the dining room was taken care of by Mrs. Frank Spoon, Martha Spoon, Mrs. Fred Caplin and Miss Gertrude Caplin. Beautiful memorial baskets of flowers decorated the tables, placed in memory of Philip Taylor, Mrs. Peter Jamieson and Mrs. Lucinda C. Clemens, all of whom had died.

They were afterwards sent to the sick of the parish.

Demand Probe of Charges in Russian Relief
Chicago—Executives of the American committee for Russian famine relief Friday sent telegrams to all United States senators and to members of the national advisory council of the relief committee demanding a congressional investigation of charges against the organization that some of the funds and supplies it gathered reached the Soviet Russian government. The telegram demanded that the American Relief association,

Swoboda Named by Cheese Men
Sheboygan—The Wisconsin Cheese Producers' federation has selected as general manager in place of the late Henry Krummer, F. G. Swoboda, formerly of Marathon county, who has been credited with upbuilding the federation during the last year.

Other officers elected at Plymouth were: President, Gus Brickbauer, Elkader; vice president, Walter Smith, Oshtemo; secretary and treasurer, R. B. Melvin, Greenbush. Directors are: John Bruckner, Dundas; William Muller, Spring Grove; P. E. Schilling, Strafford; and L. C. Burdick, Pine Island, Minn.

One hundred and fifty delegates were in attendance, a representative for every factory shipping to the federation.

PORTAGE GAS RATES ARE ORDERED CUT
Janesville—Reduction in gas rates was ordered in the city of Portage by the railroad commission Friday.

The cut amounts to 25 cents per 1,000 cubic feet on all steps of the schedule, the first 2,000 feet to cost \$2.15, the next 2,000 feet \$2.05, with all over ten thousand feet to cost \$1.85 and all over 20,000 feet \$1.75.

The commission at the same time ordered a reduction in the surcharge applied to the sale of electric current by the municipal plant at Oconomowoc. In November 1920 a surcharge of 50 per cent was authorized, and this is now reduced to 10 per cent by Friday's order.

UNFILED TONNAGE DECREASES
New York—The monthly tonnage report of the United States steel corporation made public Friday, showed 4,211,875 tons of unfiled orders on hand Jan. 31. This is a decrease from the preceding month of 26,745 tons, but an increase over the foregoing month of 17,872 tons.

DOG WINS CHILD FOR DEAF COUPLE
Chicago—Happy, a watchful collie, won a case for his master and mistress, when they were granted a petition to adopt a two year old girl.

Mr. and Mrs. M. C. Lystad, who feared that permission to adopt the child would not be granted because they were both deaf, pointed out to Judge Elgheimer that Happy was the child's staunch protector since it was informally adopted a few months ago.

Whenever the baby cried, the collie invariably informed them, they said.

PARDON REFUSED IN ASSAULT CASE
Madison, Wis.—A pardon was denied Olin B. Caven, Green Bay, serving a 25 year sentence on a statutory charge by Governor J. J. Maine, Friday.

Caver was convicted on a charge of attacking a girl. The governor explained it was of the opinion clemency should not be extended in such cases.

Theodore Frevor, Menasha, was sentenced to six months in jail and fined \$500 and costs for second moonshine offense.

Board of naval officers will determine whether battleship Washington or West Virginia shall be completed under new limitation treaty.

Two Junior Livestock Shows Plan of Breeders

Two junior livestock shows will be held this year in Madison, under the direction of the Wisconsin Livestock Association, of which Edward H. Parker, Janesville, is president. One of the shows for Dasher boys and girls, to be held in October, will be for beef cattle, swine and sheep; the second show for dairy calves.

More than \$6,000 in cash prizes is to be offered for the junior livestock competitors.

The association is also planning with the college of agriculture to have a demonstration railroad car make a trip through western Wisconsin this summer.

"Things look better in almost every farm department this year," declared Edward H. Parker, Wisconsin should make a decided advance this year, as I am convinced conditions are going to be very improved."

MESSAGE TO WEAK, NERVOUS, 'RUN-DOWN' WOMEN

We venture to say there isn't a woman who at some time or other does not get into a weak, nervous, run-down condition, without energy or ambition, or who hasn't a delicate, ailing child, or perhaps a feeble, aged parent.

It will interest every such man or woman to know that the medical profession have for some time been recommending a dietetic treatment for such conditions, rather than medicine, and at last science has produced SUSTO Nutritive Tonic Tablets which contain in a concentrated form the life-giving and strengthening elements of wheat, rice, eggs, milk with beef protein, nucleic acid, and iron that is lacking in our daily diet, to overcome such conditions.

SUSTO has been tested and approved at one of our greatest American Medical Colleges by a Professor of Physiological Chemistry, and after months of experimenting with SUSTO he says: "In all cases of a general run-down system, or in convalescence, SUSTO played a very important part in stimulating the appetite and increasing body weight."

Therefore, we feel very confident that our customers can find nothing better than SUSTO for the ailments for which it is recommended.

If you try it for one month and do not feel better in every way, we will return your money. For Sale by Smith Drug Co.

FIFTH LARGE SHIPMENT OF FAMOUS REMEDY RECEIVED AT PEOPLES DRUG STORE

Hundreds Here Find Trutona Invaluable for Treating Nervousness, Headaches, Backaches, Blood Disorders.

Another large shipment of Trutona has been received at the PEOPLES Drug Store—the fifth since the introduction of this famous tonic only a few months ago.

And of what significance is this? It means that hundreds and hundreds of Janesville people are finding it to be an invaluable agency for overcoming nervousness, sleeplessness, backaches, blood disorders, rheumatism, gastritis, headaches, back and chest pains and the like. Scores of these hundreds say that Trutona acts in an entirely different manner from other preparations which they have taken. They say that Trutona doesn't stop at merely relieving their symptoms, but simultaneously strengthens and tones up their entire system.

"I feel better in every respect now," is the assertion which countless local residents have made, after using this great reconstructive agency.

The tremendous demand for Trutona in Janesville and vicinity, is the greatest tribute to its merit. There are hundreds of SATISFIED users of this famous tonic in Janesville today. News for Farmers Farm Bureau Official Information

BINGHAM BUYS POWER OF FARMERS FOUNDATION STOCK

Two Farmers at Koshkonong and Milton Buy New Holstein Stock.

Edward Bingham, famous as a hunter, at Lake Koshkonong, known as the greatest sportsman in Wisconsin, has sold away his favorite malarian gun and taken more interest in Holstein pedigrees. He has improved his herd on the Bingham farm near Koshkonong.

He purchased four top-notch heifers, one that was sired by a 25-pound bull; one a granddaughter of Nancy Spotted, a great show cow. Another of his new heifers was good enough to be the lead of 12 heifers at the Janesville fair. Every one is a real heifer, backed by good records. With this stock as a foundation, Bingham expects some quality calves from his bull first in a class at the Janesville fair. Part of the stock comes from the Milton stock farm of J. W. Jones.

Dr. G. W. Post and Harry North have also bought Holstein, blooded stock. North is putting his stock up for test records. Edward Jones and other officers are confident of the success of the new Holstein calf club, and the sale of blooded bull calves which are being offered at \$25 apiece.

Our purpose in offering blooded Holstein sires for \$25 is to help get rid of the scrub bulls in the county and interest farmers in better cattle. Much is to be made from the stock, as it is a good sire. At this price a blooded sire on his farm in the event he decides upon Holsteins. We want to distribute our good stock, as we want the farmers to be satisfied with the results.

For every breeder in Rock county, no matter what he raises, should get his shoulder to the wheel and push the county. This is the important thing. Having a man like J. A. Craig get ahead and do something progressive, for we know we'll get there."

Price Cutting Means Cheap Power Farming

There is a big business war pending between four or five of the big companies in the tractor and farm implement business. It will effect hundreds of companies manufacturing and handling farm power machinery.

Within the last two weeks three big makers of tractors and farm implements have been quoted near by these three companies are actually below production costs—or at least it is so claimed by two of the concern. Henry Ford started the slashing. Then the Stinson division of the General Motors cut, and the International followed suit. This left the others a choice of holding on to their previous price or coming in on the reduction.

The tractor business is overproduction. It is doubtful if tractor prices will stay at the present level. Several of the companies running under heavy production schedules were loaded up and the farmers were not buying. Farmers will never have a better opportunity of buying tractors than now. It is generally admitted the tractors are being sold at prices less than it cost to produce, and the tractor designs and machines have not been made to fit the lower prices. It is a critical time in the tractor industry and farm implement business.

POWER OF FARMERS BECOMING EVIDENT

Organization Proving Good Medicine. Plan for the Future.

By LEWIS C. FRENCH.
The American farmer is riding on the upward crest of a national wave to a better agriculture. Whether he goes over the top of that wave and again sinks down into the wallow of depression depends on his attitude toward organization.

Results obtained thus far have been directly the influence of an organized effort—largely the work of the American Farm Bureau federation. That that result is so real, steady and sound basis, or that farm market are all that they should be at the present time, but conditions are vastly improved and they will continue to improve just as long as the farmers hang on to the idea of organized effort.

Farm Power Evident

The American farmer is riding on the upward crest of a national wave to a better agriculture. Whether he goes over the top of that wave and again sinks down into the wallow of depression depends on his attitude toward organization.

Results obtained thus far have been directly the influence of an organized effort—largely the work of the American Farm Bureau federation. That that result is so real, steady and sound basis, or that farm market are all that they should be at the present time, but conditions are vastly improved and they will continue to improve just as long as the farmers hang on to the idea of organized effort.

Have Good Leadership

Correct organization among farmers would mean that 6,000,000 independent men would be organized together for the common good of their business—farming. And they could get what they wanted so long as it is fair and reasonable to the general interest. It is not likely that farmers would ask for anything more.

Many schemes and plans have been fostered to help the farmer but generally the farmer can do his own helping providing that he is well equipped and has intelligent leadership. And farmers have had good leadership in the last six months for the results show it.

The Agriculture Block Needs a Defense

The agriculture block needs a defense. When the farming industry demands and obtains a guarantee of six percent on their investments—which they didn't get—then there must be some just criticism. At any time when farming is made more prosperous it is going to directly reflect on every other business.

The farmer's representation in Congress will continue to have controlling power just so long as the organized farmers keep their thumbs down hard on the statesmen representing them. The real agriculture movement is found in the American Farm Bureau federation and whether the bloc is right or wrong, it is getting national results.

Failures in Past

It is the farmer's task to keep that power and representation from being merely a passing politicalfad. Rather they should make it a permanent fact.

Block and other facts have brought agriculture to the front. Farming has occupied more attention in the last six months than at any time previous in years. And the farmers should keep this action still focused on better marketing and farming by constant organized work. Otherwise it will sag down in a few months and in time be lost in the shuffle.

Other farm organization formed in the past, made big splashes, ascended into power for a brief moment and then lapsed into failures because when conditions were better to some extent, the farmers

NEWEST MEMBER OF THE BUTTER "400"

When the Wisconsin legislature meets again it would not be surprising if there was a state farm bloc. There are enough farmer votes to accomplish it and force state laws. The farm bloc has played a part in the past and it is likely to play a part in the future. It has no candidates for office but its leaders dictate farmer demands regardless of party lines to those holding office.

Cooperative marketing plans are not put through in a month. It takes time. But better marketing is coming in the readjustment of agricultural effort.

The most encouraging feature for Wisconsin farmers is the more sound market prices. Dairy prices are reasonable, although there should be a sharp-cutting of the producer's share to the advantage of both all on poultry products. Milk prices are low to the producer but may raise if the marketing company pool is re-established itself in the hands of the farmers on a sound basis.

\$60 Sale Average on Blooded Durocs

There was a \$60 average for the Duroc-Jersey swine offered at the joint sale of J. J. McCann and Sons and John Waldman and son held at the fair grounds on Thursday afternoon. The bulk of the stock was sold in Rock county. It was one of the best sales held in Southern Wisconsin. The top was \$100.

Once again the need of a modern sales pavilion for the county was shown. The fair grounds educational building was packed and many farmers were unable to obtain seats. Additional seating space is to be put up for the sale of the Rock county Duroc-Jersey swine.

The bidding was active and brisk throughout the sale Thursday afternoon. Those who bought animals are as follows: Harry Thorsen, Edgerton; Bert Dixon, Lima; Center, Fellows Brothers, Evansville; D. Vance, Lima; Center, Planchard Farms, Sheboygan; M. E. Simonson, Whitefish; Alvin Mould, Janesville; Edward Krensign, Watertown; Harry Trueman, Edgerton; B. D. Vance, Lima; William Reese, Watertown; J. H. Peterson, Richmond Center; A. J. Warron, Watertown; Fred Ruff, Milton; Albert Strangler, Watertown; J. H. Thorsen, Richmond Center; Henry Yale, Milton; Clarence Croft, Janesville; William E. Fulton, E. C. Evans, Watertown; Cronin, Janesville; Edward Raynor, Janesville; Mrs. Laura Evans, Watertown; George Graham, Janesville; Bousch, Janesville; Jefferson, Edgerton; and John Waldman and son, Burlington and George Irish, Avalon.

J. M. Beck, Rock county National bank, aided Clerk C. E. Culver during the sale.

"I am satisfied with the sale for prices are down on even blooded stock and we must accept the conditions," declared Fred Waldman. "We are certainly glad to see our own farmers come in to look the stock over."

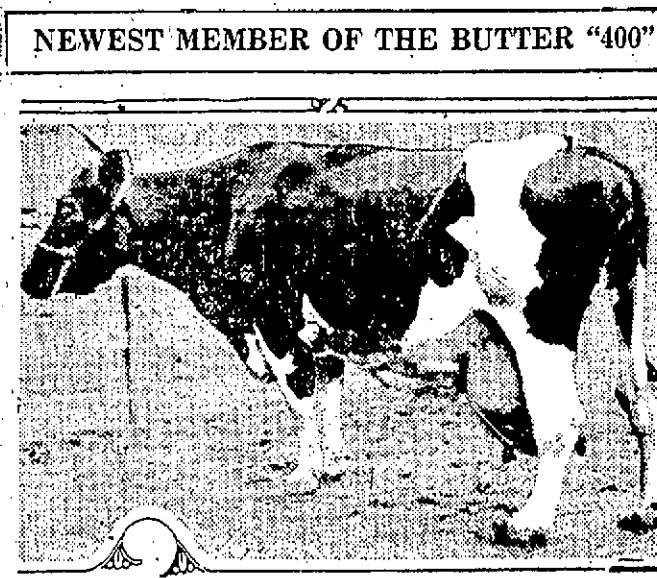

"Certainly I am satisfied with the prices," advised J. J. McCann. "The buyers bid what they valued the animals at, and the price is better than more good Rock county stock out to advertise the Duroc breed."

The Consolidated Stock Exchange of New York is the new name for the old Curb Market, and should be confused with the very well regulated New York Stock Exchange.

MAY TAKE PLACE KENYON VACATES

James R. Howard, president of the American farm bureau federation, is mentioned as a possible successor to Senator Kenyon of Iowa when Kenyon resigns to accept a seat on the federal circuit bench in that state. Howard has the backing of the agricultural bloc.

Milwaukee Team Takes Five Man Lead at State Pin Meet

Copyright 1920 by Geo. McManus

R. F. Bs. Appear
Against Edgerton
Legion, Friday

The R. F. Bs. have developed better basket eyes. This is the nearest hope coming from the camp and is their advance information on the game they are to play Friday night against the Edgerton American Legion at the Tobacco city.

Followed for weeks by a losing "jinx" the local amateurs believe they now can make a turn for the better. Although against a heavier team Friday, they are set to bring home the bacon.

The addition of "Kenny" Bick to the R. F. B. lineup is believed to have strengthened them considerably. Bick, nicknamed "Beebe," is coming along equally well. The same is true of Dawson. With Sheridan, Manowud and Paul added for guards, the team set team work going. The club will also carry Cullen and Graesslin along for the guard posts.

The R. F. B. are looking for games. Write "Ted" Hager, 503 Locust street.

2888 SCORE PUTS NELSON-MITCHELS ON HIGHEST RUNG

Madison.—The Nelson-Mitchels, Milwaukee, Thursday night took the lead in the five man event at the state bowling tournament with a score of 2,888. For nearly two weeks the lead has been held by the Miles Number 20 of Fond du Lac, with a score of 2,800. J. Nelson led the new leaders with a count of 615. H. Schmidt hit 594, and F. Day, 590; had it not been for a poor third game, the team would have come well above 2,900, since the first and second games ended with scores of 951 and 1,040, respectively.

Score Thursday night were higher than usual, with a number of counts over 2,700.

Kirchoff Now Sixth. Third at one time, Paul Kirchoff of Janesville is now in sixth place in the singles with 615. H. Schmidt, Milwaukee, used him out Thursday with a 645 score.

Beloit College Hot After Title

With a clean slate of seven straight wins, Beloit college plays Lawrence in a return game at the Gold gym Friday night. Another victory for the Gateway city college will give Beloit a clean slate. A win by Beloit will enable them to finish the season tied for first even if they lose all the rest of their games. Beloit defeated Lawrence at Appleton, 19-18, in the Gold features a first passing attack. Next Monday, Beloit college takes on Carleton.

PUSH WOOLENS HARD FOR I-C PIN LEAD

GAMES FRIDAY

Fordons vs. Samson Tractors, 1-2
Gazette vs. Janesville Electric, 1-2
Woolen Mills vs. Post Office, 1-2

East

Cardinals vs. Golden Eagle, 1-2
Varsity vs. Star's Grocery, 1-2
American Express vs. Bostwick, 1-2

With but few points separating them, the Woolen Mills and the Gazette go out with vengeance Friday night in an exciting game in the Industrial-Commercial league standing. The Woolens, in first, are down to play the Post Office and may have a real tussle before the final game is chalked up. The Gazette is in for a battle with the Janesville Electric, always a five with which to "wreck."

While these games are going on, the Samson Tractors meet their worst enemies, the Ford Tractors. "Price cutting" will have no out-in here despite the fact that the third place Samsons are six laps ahead.

The American Express appears to have the easiest match on its hands of the night but you never can tell what the Bostwicks will do. The Varsity will find a tough customer in the climbing Carr Groceries and the Golden Eagle.

Enforce Present Rules, Opinion of Big Coaches; Revise, Say Some Others

[BY ASSOCIATED PRESS.]

Chicago—Athletic directors of seventeen middle-western universities, in statements to the Associated Press Tuesday suggested drastic ways of combating professionalism in college sports and agreed that prompt action must be taken, particularly in regard to football.

The signatures included abolition of pre-football formations, of college organizations to fight professionalism in colleges, aid from the press in preserving college amateurism, cooperation with professional organizations to prevent signing of college men, and a general athletic house cleaning at once in all universities.

Some directors urged immediate revision of the rules on professional football while others said the present rules were sufficient if properly enforced.

Stadium Drives Hurt

One director thought elimination of stadium drives would help. "There was too great a temptation to overlook professionalism for the sake of getting a winning team which would help the stadium drive," another placed the blame for professionalism squarely on the schools themselves saying they "had winked at summer baseball" so "long" that they had "brought on the recent revelations of pre-football."

Many urged prompt settlement of the summer ball question as a help towards clearing up the matter. Summaries of the statements follow:

Howard Jones, Iowa: "Faculty representatives of the western conference must take a firm stand on what constitutes professionalism and make athletic directors responsible for enforcing the rules."

Dana Evans, Northwestern: "The way to prevent professionalism is to strictly enforce the present rules."

B. O. Stuchin, Indiana: "The organization should legislate against college men. We must develop an honest and gentlemanly agreement in our schools to prevent our men from playing professional games."

N. A. Kellogg, Purdue: "The fact that the summer baseball rule has never been enforced has caused a feeling among the football men that they also could play professional ball and get away with it."

Tom Jones, Wisconsin: "We must create so strong a sentiment among the players and fans that it is impossible to induce a college man to turn professional."

A. A. Stank, Chicago: "Enforce the rules we have in an honest wholehearted way."

J. W. Wilcox, Ohio State: "There is no need for hysteria. Simply enforce the present rules."

Kenneth Rockwell, Notre Dame: "Professional football should be abolished, even for men who are through college. Pro-players work one day a week for a few months. This many become loafers who do not want to work. Soon they are derelicts to society. At 30, they are through and have nothing for the future. I favor concerted action at once by every school."

C. H. Hall, Illinois: "I do not believe professional football is a good thing even for graduates. Enforce stringently."

Fred Leuchter, Minnesota: "Abolish the idea some athletes have that they honor a university by playing on its teams and are privileged to do as they please. Let the student know he is being honored when he makes a team."

WHITEWATER NORMAL AWAITS MILWAUKEE

BATTLE OF SAINTS OPENS CHURCH LEAGUE

Inauguration of the church basketball league will be made Saturday night when two teams initiate the season at the J. M. C. A. gymnasium. The scheduled games are between St. Patrick's and St. Mary's and St. Patrick's and St. Peter's. The Methodist church against St. Peter's.

Chicago—The first world's classic bowling tournament opened.

Kansas Battles Leonard Again for the Title

New York.—Rocky Kansas, rugged Italian pugilist of Buffalo, will Friday night get his second chance at the world's heavyweight title in a 15 round decision bout with Champion Benay Leonard.

In Harrison, N. J., last summer, Kansas met the champion, and Leonard was acclaimed victor on points by flake experts.

Friday's encounter will be different from that in New Jersey, as the New York law permits decisions.

BOARD OF HEALTH TO ASK SALARY AT ORIGINAL FIGURE

(Continued from Page 1)

them down town, during and other out-of-the-way places to see there is no health risk.

Inspecting them and reporting on ventilation of all public buildings.

Cooperating with health officer in cases of contagious diseases.

Investigating all complaints from a general sanitary condition.

Interviewing merchants, manufacturers and others to have them raise the sanitary condition of their places of business.

Enforcing the pure food laws, sending out notices in regard to sanitary conditions and prosecuting all cases in court for sanitary changes.

Through Inspectors Necessary.

Commenting upon his work, Dr. Woodworth told the health board: "The 181 places where food is handled have been inspected on an average of once a month. The minimum time necessary for an inspection of any place of business is 20 minutes and this time may have to be extended to 30 minutes in case of a property where the extra stock must be gone over to see it is properly labeled, does not contain unwholesome ingredients, that the meat is not bleached and that fresh eggs are fresh eggs and not held or stored eggs. This all requires considerable time. This work must be done by someone familiar with the city ordinances and the state pure food laws and also, having some knowledge of bacteriology and medicine."

"The alleys have been inspected over more often than the stores to be certain that no refuse, garbage, or offal has been thrown out in them."

"There have been an average of nine inspections of business places a day. Because all clerical work must be done personally, an average of at least one and one-half hours has been spent in the office daily. This time was also devoted to studying the different laws, and other literature, besides attending to the work of the department had to be talked by the personnel. These hours have been regular and Dr. Welch has made no pointment have called to interview the sanitary inspector."

Work at All Hours

"The hours of working have to a certain extent been during the regular day period but at times the work requires that the person holding this position be out early in the morning and then again late at night. For instance people collecting garbage must make the rounds early in the morning and must be checked to see they are living up to the requirements of the law."

"Then again, complaints may be received after hours which must be looked up and some action taken at once so it is difficult to say with meetings, complaints and interviews which often take place at other than regular times, what hours are being put in on this position. This time will average at the least six hours per day but an actual time has been kept. I can not say how much more it will average when other than the regular time is counted."

FIGHT MANAGER TO CUT PRICES

BY FRANK SINCLAIR

Boxers are asking too much money for their services and the poorer they cut will win the more money they will get and the better off both they and their clubs will be.

In this opinion, Promoter Kline of Rockford agreed while on a visit here Thursday. He came to consult President E. R. McKelvie of the Janesville Junior Athletic club, backers of boxing matches here.

Willing to Come Down

"I am willing to come down in my prices," he stated. "It will help the Janesville club to get a chance to make a profit if all boxers and managers will do the same thing. Of course times are hard and the boxers must take that into consideration or they will be hurting themselves."

Kline is the manager of Frankie Rick and Buck Mullin, men who won their fights on the January card here.

It is expected that the Janesville club will stage its next fight early in March.

Beloit Out to Even Scores With Blues

Even it up.

This is the order, given by Coach Wolfe of Beloit high school to his squad as the method to be followed when Janesville high steps out on the college gym at the Gateway city Saturday night to meet the Purple.

The cause is the 12-11 victory held by the Blues over Beloit.

With a less experienced squad than faced Beloit here, but a wealthier machine, Janesville has hopes of making it two straight. Comparative dope shows that Beloit beat Beloit a week ago 22 to 11, while Janesville beat Beloit 12 to 11. If this has any weight, the Blues have a better chance than in the earlier game. But you never can tell.

The battle starts at 8 p. m. The biggest crowd of the year is being arranged for at Beloit.

Friday night, the Janesville seconds play Harvard.

Beloit goes to Madison Friday to play Madison high.

The lineup for the second team game at Harvard Friday is: Knipp, Jr.; Hallam, Jr.; Clark, Jr.; H. Caser; Meek, Jr.; and J. Caser, Greenidge and Conry substitutes. This will be Knipp's first appearance in several weeks.

The seconds leave here at 2:45 p. m. The game starts at 7:00 p. m.

FIRST LEG OF GYM MEET NEXT FRIDAY

A triangular gymnastic meet between Janesville, Beloit and Madison "Y" will start at Beloit next Friday night. Janesville will send a team of 10 men, Beloit a team of 10 men and Madison a team of 10 men. The second leg of the tournament will be held here while the third will take place at Madison on dates to be announced later.

Angling for School Stars Hurting College Athletics

[BY ASSOCIATED PRESS.]

Columbus, O.—Recruiting of high school athletes by alumni of various universities is the real cause of professionalism in college sports, Prof. Thomas D. French of Ohio State and president of the Western Conference said Friday in a statement to the Associated Press, discussing the recent athletic scandals.

"This proselytizing of college athletics through the recruiting of high school stars by alumni is a growing evil that is causing more concern to the authorities of Western Conference schools than the financial temptation to college players to join the ranks of the professionals," he said.

Prof. French said the matter had been discussed at meetings of big ten officials and that it undoubtedly would be taken up again at the next meeting of the conference in June at Iowa City.

While declaring he believed present athletic rules and the attitude of the public were sufficient to combat professionalism in sports in Big Ten schools, Prof. French said the establishment of college conferences in all parts of the country together with the promulgation of strict sports rules by these conferences would do more than any other thing to purify college sport in general.

ROTARY AND KIWANIS AT BRIDGE FRIDAY

NEGRO WITH AXE SLAYS 5 PEOPLE

Terrorizes Birmingham, Ala.,
With His Crimes and
Escapes.

November 28—G. T. Ayer, grocery clerk, felled with axe while leaning over pickle barrel. Died thirty-six hours later.

December 21—Mr. and Mrs. Joe Mantione, slain with axe in their combination store and home.

January 19—Mr. and Mrs. G. S. Crawford assaulted with axe in combination grocery and home. Mrs. Crawford being killed instantly. Crawford died a week later.

January 25—Tony Loreno and wife, Rosa, assaulted by ax near their store. Both in serious condition.

Birmingham, Ala.—The workings of an ax slayer, believed to be a negro maniac, has cast a veil of fear over Birmingham. With five persons slain in their homes or at work, the slayer is still at large to continue his depredations in a manner so cunning that the police and detectives are completely baffled.

Negro Believed Slayer
His latest victims, Mr. and Mrs. Tony Loreno, gave the police the first tangible clue as to his identity but nothing more. Loreno was stopping to wait on the ostensible customer when he was dealt a blow on the head by a negro. Loreno was felled and his assailant started for the rear of the store where the Loreno family lived. His victim revived sufficiently to draw a revolver and fire at the negro, but he was too stunned to aim accurately and the axman ignored the shots. He then struck down Mrs. Loreno, walked back to the husband, who still held his weapon, and struck him another blow with the ax. Loreno was able later to tell the police his assailant was a negro and described him. The similarity of the manner of the murders leads the police to believe the same negro is the slayer of all.

Five Are Slain
In every case the nature of the wounds, the position of the bodies and other circumstantial evidence have shown the same criminal methods. The husband and wife have been killed, but the babies never harmed. He usually kills by hacking the life from his victims with a short handax. His victims usually are suburban grocers, who live in the rear of their places of business. Of five attacks in the last two months, there have been five fatalities. Other victims were left for dead. He always leaves not a smudge of a clue, not even a finger print, a shrewdness not possessed by the ordinary criminal.

Birmingham is dismayed. Suburban merchants are up in arms, and fear has entered the minds of not only the women and children, but the strong men hitherto unafraid. No one knows who the next victim will be, but that there will be others is considered probable, for the axman is still at large.

Only Posed Photo of Ex-Kaiser, Obtained After Months of Effort

Ex-Kaiser Wilhelm, the ex-kaiserin and Prince Joachim's boy, posing for the camera, and an enlarged photo of the ex-kaiser's face made from the same photo.

New York—The ex-kaiser and newspaper readers know, was one of the most photographed men in the world before and during the war.

When his downfall came and he fled to Holland, his liking for that kind of publicity changed with other habits and from the role of possessor he turned completely about face and fostered a positive hate for the lens.

As soon as newspaper men became aware of the condition of the former emperor they started machinery in operation to secure photographs of him and the ex-kaiser, learning this, gave strict orders to his entourage to rid his house of all cameras and to take precautions against visitors carrying them in.

More than two years ago a Dutch photographer, hiding in a hay cart, was able to make a few long-distance snaps of him. The publication of these, put the subject into a rage.

With this story are prints of the first posed picture, therefore, of the ex-kaiser obtained since he went into exile. The effort to get the photo, as told by Bert Garal, London manager of the Keystone View Company, who obtained it, is, therefore, interesting and thrilling.

Says Garal: "Soon after the Kaiser took up his home at Doorn, his youngest son, Prince Joachim, killed himself. This was a severe blow to the ex-ruler and to the Kaiserin, to whom Joachim was ever the baby of the family.

"So serious, in fact, was the condition of the Kaiserin that Joachim's little boy was brought to her against the wishes of the child's mother, and the child did succeed in making them forget their loss.

"It was in April last (1921) that the Kaiserin one day turned to the former war lord, in the presence of Oscar, their fifth son, and begged his permission to have a little smiling snapshot taken of Oscar, Joachim's boy joined in the plea and the Kaiser finally consented. Prince Oscar making the snap with the ex-kaiser's own camera. The film was developed in the Doorn house, and a few prints were made for the Kaiserin only.

Ludendorff Gets Print
"A few days later the Kaiserin was stricken with heart trouble and succumbed to it within the next week. After her burial her sons insisted on getting a print of the last photograph of their mother and in this way about a dozen of the prints were distributed. Generals Ludendorff and Hindenburg were the only persons outside of the immediate family to receive copies of the picture and each recipient was required to give his—or her—word of honor to keep the photograph from newspapers.

"This is the story as it was related to me by a member of the Doorn household. After hearing the story I thought it might be possible to secure a copy of the photograph through a servant, but after days of fruitless interviewing

I noticed on his desk in a rich mahogany frame the picture I was seeking. I approached him then on selling it to me and he was receptive, but he insisted on a price of \$1,000,000 gold marks—approximately \$600,000—which was, of course, out of the question.

"Leaving Munich, I went to Berlin and interviewed there every other possessor of the coveted photograph, but met with the same failure. "On the eve of my departure General Ludendorff's secretary visited me at my hotel and offered the general's copy for \$1,000,000 paper marks—approximately \$470,000 and present sale of exchange—and knowing that I was about to depart he held out for that price, and I gave it to him."

MT. Rainier Climbers Prepare for Ascent

Tacoma, Wash.—Every possible preparation to enable Jean and Jacques Landry and Jacques Berge to accomplish a winter ascent of Mount Rainier has been completed and the climbers Friday were awaiting only favorable weather conditions for a start to the summit. The signal corps of the United States army has established wire communications from Arvill Rock, the base of the climb, to the foot of Mount Rainier.

PROSPERITY AHEAD, PRESIDENT WRITES

Letter to Minnesota Farmers
Praises Spirit, Leads
Encouragement.

Cedar Rapids, Minn.—The general industrial and business situation now is such as to justify confidence that we are well past the worst phase of the agricultural crisis," declared President Harding in a letter read Friday to farmers attending the annual Red River Valley Farmer Club and livestock show here.

"The improvement is well begun and will continue steadily from this time forward," said the letter. He referred to the recent national agricultural conference in Washington and continued:

"I am glad to say that my utmost anticipations of useful results from this gathering were more than realized. I believe it has set a new mark in the aspirations, not only of the agricultural community, but indeed, of the entire country in behalf of a better understanding of our agricultural problem and of more effective measures for dealing with it.

Prakes Karim Spill.

"The fine spirit of cooperation among the farmers and the disposition on their part to unite their efforts in every possible way with those of the government, augurs particularly well for our hope of accomplishing the improvement in the future."

The conference gave serious and thorough consideration to the problems before it and presented practicable proposals for doing practical and useful things. It avoided all extremism and adopted the wise course of making no excessive demands for special favors or class treatment. I am very sure that the wisdom of this course will be demonstrated hereafter.

"In the general industrial and business situation there is much to justify confidence that we are well past the worst phases of the agricultural crisis, that improvement is well begun and that it will continue steadily from this time forward. This is not only a course of satisfaction to every friend of the farmer, but also to every one who is interested in any phase of American business for we have all come to recognize the interdependence of all departments of the national industrial establishment.

Prosperity Ahead, Belief.

"No one of them can prosper permanently if any other great branch of national activity is depressed. Therefore in expressing my conviction, based on a wide array of information, that the worst is past, as concerns agriculture, I am recording my firm belief that an era of better business and more prosperous times for the entire commercial establishment of the country has just ahead of us. I feel therefore that we are entitled to look with much satisfaction at what we have accomplished in the last year and with all confidence in the future."

BIKES BY WIRE

Paris—The French note to the United States and the allies regarding the Geneva conference states that France might abstain from participation if the invitation is accepted by other powers under conditions that might menace its interests.

New York—Secretary of Agriculture Wallace cited the recent increased purchasing power of farmers as a hopeful sign to industry in general in an address.

Ottawa—Canada will be represented at the economic conference at Geneva, it was announced.

London—The cabinet office issued proposals for the future government of Palestine.

MILLION DOLLAR BUILDING GIVEN CITY—IN A DREAM

Recipe for "Borghese Jaws"—Take one half-sized piece of mine pie at bedtime and mix thoroughly with eight hours sleep, with a dash of business cares thrown in to sweeten.

O. S. Morse, 220 Glen street, insurance agent, is reported to have tried the above mixture with brilliant success. He had a dream, Thursday, on a par with that of Davell Sullivan in the "dope" net at the American Legion "Follies."

He is reported to "have dreamed of suddenly coming into possession of several million dollars." The first thing he did was to buy the property on Wall street opposite the city hall and tear down a number of frame houses on it. They were sent to Milwaukee for architects and had them come out to draw plans for a \$1,000,000 community building to be erected on the site and then presented to the City of Janesville as a Morse memorial.

Instead, it turned out to be a mere dream and he awoke to find he had overslept five minutes.

EMERALDS BOOM AS FASHIONABLE JEWEL

London—The choice of emeralds for Princess Mary's engagement ring has caused a boom in those stones in England. The square cut emerald is the most fashionable and the most expensive. Emeralds are dearer than diamonds, and run from \$70 to \$300 a carat up to \$2000 a carat for stones free from flaws, which are extremely rare.

MODEST SCIENTIST REFUSES LARGE SUM

Paris—Professor Branly, who is regarded by France as the father of wireless telegraphy, because his coherer made the use of Hertzian waves practicable, has declined an offer of 20,000 francs made by the Chamber of Deputies.

This sum was voted toward the upkeep of Branly's laboratory and to aid his researches as the president of the Academy of Sciences.

MANY PEOPLE LIKE TINY TABLETS BETTER THAN ORDINARY YEAST

Tablets Highly Concentrated—
Embrace Proper Dose—
Easily Taken

For those who want the wonderful health-giving Vitamins out of yeast without having to eat a whole cake of yeast—the chemists have concentrated (boiled down) the yeast into a tiny, highly concentrated tablet containing a proper dose. These tablets are called Phos-Pho Vitamine tablets because they contain in addition to Phos and Water Soluble Vitamins, the equally important Glycophosphates. Results are quicker, better for you, more economical and easier to take.

With these Phos-Pho Vitamine tablets thousands of men and women are gaining better health, freedom from nervous skin, blood, digestion and nutritional troubles—you may easily do the same.

Each bottle of the genuine Phos-Pho Vitamine tablets is packed in an orange colored carton bearing name of the famous Irving Laboratories, which is a guarantee to you of finest quality and purity in medicine. Chemists, experts and druggists endorse this newer, easier way to take yeast.

Persons should put themselves in the pink of condition this year. With the aid of Phos-Pho Vitamine tablets you will help the stomach handle the heavier, heart-making winter foods—hot cakes, meats and pastries which you need. All druggists have Phos-Pho Vitamine or supply on receipt of price, \$1.00. Try a Phos-Pho Vitamine. Advertising.

SUGGESTIONS ARE GIVEN FOR THOSE NOW OUT OF WORK

A Janesville man offers the following suggestions for people out of work:

Catcher coal, fallen in streets and railroad tracks or from ash heaps.

Chicken wood which has fallen in nearby woods and may be had for nothing.

Almost every prosperous family wastes food which goes into garbage pail. This would be saved and given away. Should anyone in need ask for it, no one would refuse.

Chickens can be kept without cost by collecting the neighborhood garbage for them, thereby keeping the owner of them, in order.

A person out of work is justified in working free, if necessary, as helper at some skilled work to himself to earn more when work is more plentiful.

Attendance at the vocational schools would accomplish the same thing.

Most articles are full of discarded clothing, shoes and furniture.

MANY SEEK PASSAGE TO UNITED STATES

Kovno, Lithuania—Queues of about 50 persons, prospective immigrants to the United States, are waiting every morning at the opening hour outside the passport office of the American consulate here, which opened work on Nov. 7.

The number is growing daily, and it is understood a steamship company here, which has direct lines from the Baltic ports to America, has already booked 2,000 passages in advance.

The majority of applicants appear to be women, while it is particularly noticeable that Jewish immigrants, contrary to expectations, seem for some reasons to be holding back, at least for the present.

Would Balk Marriage of Mentally Diseased

Copenhagen—Persons of deranged minds and "imbeciles" of a higher degree would not be allowed to marry without permission, under a proposed law pending in the Danish parliament. Persons suffering from a certain infectious disease or epilepsy would not be allowed to marry unless the other party to the marriage is previously informed of the facts and both parties have been warned by a medical man of the dangers of marriage in such circumstances.

PLAN TO BEAUTIFY CITY

Neenah—In an effort to encourage Neenah property-owners to aid in a campaign to make Neenah the most beautiful city in the state for its size, the Neenah Civic association has entered into an agreement with a nursery company to furnish shrubbery to Neenah people at a reduced rate.

NAMED ACTING DEAN

Marquette—The Rev. George A. Dorfman, head of the department of philosophy at Marquette university for three years, has been appointed acting dean of the college of arts and sciences to fill the vacancy created by the appointment of the former dean, the Rev. Aloysius H. Rohde, to the presidency of Canby.

which could be solicited and repaired and cleaned, and then be used or sold.

Winter is the time for white-washing cellars and many would have their ashes removed now if a needy person would solicit the work.

STATE EDUCATIONAL BUILDING FAVORED

(By Associated Press.)

Madison—The establishment of a Wisconsin educational building, to house educational offices now in the state capital, the free library commission, library school, school of education at the university, administrative offices of the university and the teachers' retirement fund, was endorsed by the state board of education at its meeting Thursday.

The board also approved any steps that might be taken to construct the \$1,000,000 general hospital at the University of Wisconsin, provided for by a special session of the legislature in 1920.

Additional teachers for normal schools, aggregating an expenditure of \$30,000, were authorized out of \$50,000 available.

Land purchases by the university were approved.

Vessels Scarce as Lumber Trade Grows

San Francisco—The lumber trade on the Pacific coast is increasing so that bottom, are scarce and the search for new schooner has been carried even as far as France. Lumber operators also are pressing into service motor ships, reconverted from shipping board wooden hulls.

STOUT HOMESTEAD IS GIVEN TO STATE

Madison—The old homestead of former Senator James H. Stout at Menomonie has just been given to the state by Mrs. Appolina W. Stout, widow of the founder of Stout Institute, and the gift accepted by the state board of vocational education.

The homestead includes a large residence and 29 acres of property contiguous to the present campus of Stout Institute. During the lifetime of Mrs. Stout and her son, the home is to be used as a dormitory for women teachers and girl students. Following their death, any disposition may be made that the vocational board wishes.

Stout Institute was founded by Senator Stout and conducted as a private school for years, before he decided it to the state.

NEED NOT TAKE ACTION

Madison—Teachers who made contracts before July 3, 1921, were not required to take affirmative action to escape from conformity with provisions of the retirement fund law, H. M. Hoyt, deputy attorney general advised William Kille, secretary of the board of normal school regents. He held that the five per cent deducted from the salary of a normal school teacher who objected to payment in December, after the deductions had been

made for four months, would have to be repaid to her.

The fact that she did not take affirmative action stating her objection to paying, is not consequential, the attorney general said.

Alkali in Shampoos Bad For Washing Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is Mulised coconut oil shampoo, for this is pure and entirely greaseless. It's very cheap and beats anything else all to pieces. You can get Mulised at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful of Mulised is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to handle. Besides it loosens and takes out every particle of dust, dirt and dandruff. Be sure your druggist gives you Mulised.
